### RECOVERY AND WELL-BEING

Often, discharge from the hospital is just the beginning of the journey. When it's time to leave, where will the next stay be? Why not Siena Center at St. Catherine's Village?

**Residents receive the complete spectrum of non-acute, round-the-clock skilled nursing**—from temporary recuperative care after a hospital stay or illness to long-term convalescence. However, Siena Center is so much more. It is a protected, dignified living environment within the esteemed St. Catherine's Village continuing care retirement community.

**Each individual's treatment is overseen by a physician** who is a member of the St. Catherine's Village medical staff with care centered around his or her circumstances. The nursing administration is comprised exclusively of RNs filling the roles of Director of Nursing, Director of Health Services, Licensed Nursing Home Administrator, and Nurse Manager.
